Oakio® Iniwood fencing in plateau colour

FENCING

Designed for living Built to last

Oakio® Fencing gives you all the beauty of finished hardwood, without limitations and up-keep of wood fencing.

We Know Composite Fencing

Oakio® composite fencing is backed by our 15-year limited residential warranty on Iniwood Collection and 25-year limited residential warranty on Proshield Collection. That is how we fulfill our mission of delivering products to help you create the most enduring durable and enjoyable outdoor living spaces. We are also proud of our continuous conservation and sustainability efforts. Oakio fencing is made from up to 95% recycled materials, saving tens of thousands of trees each year.

Made in China

Environmental Philosophy

Oakio® has always been at the forefront of the green building industry and since our inception in 2009, we have been consistently improving our commitments to the environment.

FSC

Forest Stewardship Council - FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. FSC products are optional, standard products are not made by FSC.

LEED

Qualified for LEED Points, up to 95% of the raw materials used to manufacture Oakio® products are sourced within 300 km of our manufacturing facility.

REACH

Oakio® products are all REACH certified which indicates conformity with health, safety and environmental protection standards for products sold within the European Economic Area.

ISO

Our ISO9001 and ISO14001 certification guarantees that our clients get only the best products and service and that the quality of what we offer is constantly and consistently improved.

CE

Oakio® products are all CE certified which indicates conformity with health, safety, and environmental protection standards for products sold within the European Economic Area.

Let's get Fencing out

Find serenity in your surrounding with Oakio Fencing inspired by nature.

An Expert at WPC Products

Oakio® composite materials would stand up to decades of day-to-day use without the backbreaking work of sanding, staining and painting of traditional fencing. So you can spend more time enjoying the outdoors instead of maintaining your fencing.

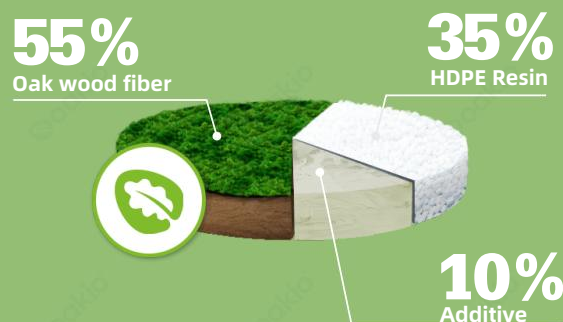

Iniwood Collection

The first generation of wood plastic composite(WPC) products. Iniwood is the abbreviation for "Initial Wood", which implies that we want to take the beauty, texture and essence of organic matter.

Elegant wood looks in 3 stunning colours are available. Mother nature has an incredibly diverse colour palette so we went to great lengths to make sure our colours really reflect the world around us.

Proshield Collection

Proshield is a closed compound word combining two words : protection and shield. Proshield Collection is the second generation of Iniwood Collection with Iniwood materials as the core and golf ball material as the shield. This means that it has an advanced premium shield encasing on all four sides around its inner core.

Qualifying for LEED Points and FSC

Iniwood Collection

Oakio® Iniwood fencing in dune colour

Iniwood Fencing

Iniwood fencing embodies the vision of a joyful and ideal courtyard lifestyle. Crafted from eco-friendly materials, it features a complete installation system, stylish colour options, and low-maintenance benefits for long-lasting durability. The composition includes 55% oak wood fiber, 35% high-density polyethylene resin, and 10% additives.

- Never have to be sealed, stained or painted
- Weather-resistant and outperform wood alternatives
- With no need to maintain or replace
- Splinters free and crack resistant
- No issues with warping
- 15 years residential warranty
