WHO WE ARE

Designed for living Built to last

Oakio® WPC Cladding have the look and feel of traditional wood, with the added strength, durability and sustainability of composite materials.

We Know WPC!

Oakio® WPC Cladding is backed by a 25-year limited residential warranty for the Proshield Collection, 20 years for the Orionwood Collection, and 15 years for the Iniwood Collection. Our goal is simple: to create products that help build outdoor spaces made to last.

Sustainability is equally fundamental to the way we develop our materials. Oakio® WPC Cladding is made with up to 95% recycled materials, supporting a more responsible approach to material use while reducing reliance on virgin resources.

With a focus on durability, performance, and responsible material use, Oakio® develops high-performance WPC solutions for modern buildings and outdoor spaces.

Proshield Collection

Orionwood Collection

Iniwood Collection

 Designed in USA
 Made in China

Environmental Philosophy

Since our founding in 2009, Oakio® has remained committed to developing more sustainable building materials and continuously improving our environmental practices.

FSC

FSC certification verifies that forest-based materials come from responsibly managed forests that provide environmental, social, and economic benefits.

FSC-certified products are available as an optional offering. Standard products are not FSC-certified.

LEED

Up to 95% of the raw materials used to manufacture Oakio® products are sourced within 300 km of our manufacturing facility.

REACH

All Oakio® products comply with applicable REACH requirements for chemical substances in products placed on the European market.

ISO

Our ISO 9001 and ISO 14001 certifications demonstrate our commitment to consistent quality, responsible environmental management, and continuous improvement.

CE

Oakio® products bearing the CE marking comply with the applicable European requirements for health, safety, and environmental protection.

Let's build to last

Create spaces that feel as good as they look.

Colour, Texture & Touch

At Oakio®, we take inspiration from the natural world to create distinctive colours and textures across our WPC collections. From clean, understated tones to rich, multi-tonal finishes, each collection has its own character.

Iniwood Collection

Iniwood offers a selection of simple, solid colours with a more subtle wood-grain texture. Its 3D embossed grain adds a natural touch and gentle colour variation across the surface.

Proshield Collection

Proshield offers 12 colours with richer colour variation and more pronounced wood-grain textures. Its layered tones and hand-scraped surface create a deeper, more distinctive wood-inspired look.

Orionwood Collection

Orionwood features 8 colours inspired by the natural tones of minerals and ores. With refined colour variation and a distinctive wood-grain texture, it offers a balanced, contemporary look.

Iniwood Cladding Collection

Oakio® Iniwood scallop cladding in plateau colour.

Iniwood Cladding

Iniwood is crafted from a durable wood-plastic composite that withstands harsh weather and everyday wear. Its solid construction provides a sturdy, secure feel underfoot. It consists of 55% oak wood fiber, 35% resin, and 10% additives.

- No sealing, staining, or painting required
- Resistant to weather, fading, and warping
- No need for frequent repairs or replacement
- Splinter-free and crack-resistant
- Outperform wood alternatives
- 15-year residential warranty

Code: IWV04 | 3D Embossing | 1256mm Repeat

Add-in Options

The profiles, colours, and textures shown above are our standard options. Oakio also offers full customization, contact us for more at www.oakio.com.

Proshield Cladding

Oakio® Proshield scallop cladding in westminster colour

Proshield Cladding

Proshield Collection is the second generation of Iniwood Collection with Iniwood materials(35% plastic resin, 55% oak wood fiber and 10% additive) as the core and golf ball material as the shield.

This means that it has an advanced premium shield encasing on all four sides around its inner core. Unlike most of the co-extrusion cladding on the market, Proshield cladding is capped by golf material instead of only PE.

- All the advantages of Iniwood and more
 - A variety of unique variegated Colours and wood grain finishes
 - Ultra-durable performance
- Resists stains, fading, mold, and mildew
 - Enhanced scratch resistance
 - 25-year residential warranty

Orionwood Collection

Oakio® Orionwood scallop cladding in sunstone colour

Orionwood Collection

Orionwood is Oakio's new WPC cladding collection.

Built with a 1.2–1.5 mm thicker co-extruded protective cap, Orionwood offers a higher level of protection than Iniwood at a more accessible price point than Proshield, filling the gap between the two collections.

It expands Oakio's decking portfolio with a well-balanced solution for customers seeking the right mix of performance, value and affordability.

- Thicker co-extruded protective cap
- A variety of natural colours and wood grain finishes
- 20-year residential warranty
- Resistant to stains, fading, mold and mildew
- Enhanced protection at an accessible price

Profile Choices
